## Summary

---

I'm a **Software Developer Engineer** with an MCA and strong full-stack expertise in Node.js, React.js, Next.js, and MongoDB. I build scalable, secure, and high-performance web applications with clean, maintainable code. Skilled in RESTful APIs, authentication (JWT, OAuth, OTP), WebSockets, and cloud deployment (AWS, Render, Vercel), I excel in creating dynamic dashboards, real-time systems, and user management solutions.

## Skills

---

### Technical Skills:

- **Frontend:** HTML5, CSS3, JavaScript, TypeScript, React JS, Redux, Tailwind CSS, Material UI, Bootstrap.
- **Backend:** Node.js, Express.js, REST API, WebSocket, PHP (Laravel)
- **Database:** MongoDB, MySQL, Mongoose
- **Tools:** Git, GitHub, Postman, Agile, Swagger, Vercel, Netlify, Render, Docker.
- **Authentication:** JWT, OAuth, NextAuth, Firebase Auth, Laravel Auth.

**Soft Skills:** Communication, Problem-solving & Debugging, Teamwork, Time management, Quick learner, Adaptability, Innovative, Attention to Detail.

## Experience

---

**Software Developer Engineer (MERN Stack)** Feb 2025 - Present  
Quantalynk Technologies Pvt Ltd - Vadodara, Gujrat.

**Software Developer Engineer - Internship** Jan 2024 - April 2024  
Alive Create Web Solution - Vadodara, Gujarat.

## Projects

---

### Real-Time Pet Walking Platform (Platypus App)

**Technologies:** MERN, WebSocket, JWT, Brevo, Swagger, Twilio, Google, OAuth, Firebase, Brevo, Swagger .

- Developed a Pet Walking Application using MERN Stack for scheduling walks, assigning walkers, and managing pets through an admin dashboard.
- Integrated WebSockets for real-time walker location tracking and live updates for pet owners.
- Implemented secure authentication with JWT, OTP login, and OAuth (Google, Facebook, Apple) via Firebase.
- Integrated Brevo (email) and Twilio (SMS) for automated booking confirmations, reminders, and notifications.
- Built API documentation (Swagger) and ensured reliability with unit/integration testing using Mocha, Chai, Supertest, and Jest.

### Content Management System (CMS)

**Technologies:** Next.js, Node.js, MongoDB, JWT, NextAuth, Tailwind CSS, Material UI, Bootstrap

- Developed a Content Management System (CMS) using Next.js, Node.js, and MongoDB, enabling dynamic website content updates via an intuitive admin panel.
- Implemented secure authentication and role-based access using JWT and NextAuth to manage admin privileges.
- Designed a responsive and modern UI with Tailwind CSS, Material UI, and Bootstrap, ensuring seamless usability across devices.
- Built and integrated RESTful APIs for real-time content creation, updates, and deletion directly from the admin dashboard.

## Education

---

**MCA (2022 - 2024)** - Anand Institute of Management And Information Science(GTU Ahmedabad)

- Computer Science
- 8.3 CPI

**BCA (2018 - 2021)** - : Sarvoday Institute of I.T, PANCHMAHAL

- 74.92%
